Tina Ayers

University of Arizona Charles T. Mason Michelle McMahon John R. Reeder

Printed copies of this issue are being made possible through a grant from the Arizona Native Plant Society.

An introduction to the Vascular Plants of Arizona project can be found in Canotia volume 1, issue 1.

(http://www.canotia.org/volume1.html)

Canotia publishes botanical and mycological papers related to Arizona. These may include contributions to the Vascular Plants of Arizona project, checklists, local floras, new records for Arizona and ecological studies. All manuscripts are peer-reviewed by specialists. Acceptance for publication will be at the discretion of the editor. At least 30 printed copies of each issue are distributed to libraries in the United States, Europe, and Latin America.

Anyone may download copies free of charge at http://www.canotia.org.

Canotia is named for Canotia holacantha Torr. (Celastraceae), a spiny shrub or small tree nearly endemic to Arizona.

#### INDEX TO FAMILIES OF THE VASCULAR PLANTS OF ARIZONA

Bolded treatments are published in volumes 26, 27, 29, 30, 32, 33, and 35 of the *Journal of the Arizona-Nevada Academy of Science* (JANAS) or in subsequent volumes (e.g., 1–5) of CANOTIA. Unbolded entries indicate families with no treatments published to date. Figure numbers refer to illustrations in the "Key to Families of Vascular Plants in Arizona" in JANAS 35(2). Selected VPA treatments originally published in JANAS are also available as pdf files online (http://www.canotia.org/vpa\_project.html).

Acanthaceae (Fig. 3) Aceraceae JANAS 29(1):2. 1995. (L.R. Landrum) Adiantaceae (Fig. 1) Agavaceae Part 1: Agave JANAS 32(1):1. 1999. (W.
